

Celebrating the 10 years of Cadernos EBAPE.BR, we selected some articles which, over this period, contributed to turn it into a media instrument for a reflective thought on the organizational tasks, both within themselves and in their relations to society, conveying the section Homage to the 10 years of Cadernos EBAPE.BR.

We present the articles selected for this commemorative section, which were originally published over the journal's first decade. The versions with updated data of these articles are available at the web page of Cadernos EBAPE.BR: <http://bibliotecadigital.fgv.br/ojs/index.php/cadernosebape/issue/view/1001>.
