SciELO is a virtual library of Brazilian scientific journals in electronic format. It organizes and publishes in the Internet/Web full texts of scientific journals as well as indicators of usage and impact.

The general objective of SciELO is to contribute to the advancement of Brazilian scientific research by widening and improving the process of publication, dissemination and evaluation of scientific literature.

Providing universal access to scientific journals, SciELO will promote a remarkable increase in the visibility and accessibility of national scientific literature.

The development and operation of SciELO are sponsored by FAPESP and carried out in partnership with BIREME. SciELO had its pilot operation
