

**EPIDEMIOLOGY**

The Consequences of Malaria Infection in Pregnant Women and their Infants - *L Chimsuku, FH Verhoeff, SM Maxwell, RL Broadhead, A Thomas, HJ van der Kaay, W Russell, B Brabin*..... 1

A Double Blind Comparative Study of the Acceptability of Untreated Bed Nets versus Permethrin, Lambda-cyhalothrin and Deltamethrin Impregnated Bed Nets - *NT Marbiah, E Magbiti, JD Lines, GH Maude, BM Greenwood, D Bradley, E Petersen*... 3

PCR Characterization of Isolates from Various Endemic Areas: Diversity and Turn Over of *Plasmodium falciparum* Populations are Correlated with Transmission - *Pierre Daubersies, Selma Salenave-Sales, Jean François Trape, Lucie Raharimalala, Christophe Rogier, Hughes Contamin, Thierry Fandeur, Claudio T Daniel-Ribeiro, Odile Mercereau-Puijalon, Pierre Druilhe* ..... 9

Transmission Blocking Immunity as Observed in a Feeder System and Serological Reactivity to Pfs 48/45 and Pfs 230 in Field Sera - *W Roeffen, T Lensen, B Mulder, K Teelen, R Sauerwein, W Eling, JHETH Meuwissen, P Beckers*..... 13

Serum Factors Inhibitory for *in vitro* Development of *Plasmodium falciparum* Blood-stage Parasites - *Blanca L Perlaza, Cecilia de Plata, Constanza Zapata, Jaime A Ramirez, Sócrates Herrera* ..... 17

Early Sporogonic Development in Local Vectors of *Plasmodium falciparum* in Rural Cameroon - *Vincent Robert, Gilbert Le Goff, Jean Claude Toto, Julienne Essong, Jan Peter Verhave*..... 23

Interactions Between Parasites and Insect Vectors - *Hilary Hurd*..... 27

**BIOCHEMISTRY**

Subtelomeric Structure of *Plasmodium falciparum* Chromosomes - *R Scotti, T Pace, L Roca, C Frontali*. 31

Isolation of a Distally Located Gene Possibly Correlated with Gametocyte Production Ability - *C Birago, T Pace, L Picci, M Ponzi*..... 33

Attempted Isolation of the Gene Encoding the 21 Kd *Plasmodium berghei* Ookinete Transmission Blocking Antigen from *Plasmodium Yoelli* and *Plasmodium vivax* - *GC Barker, MH Rodriguez, RE Sinden*..... 37

Chromosomes and Sexual Development of Rodent Malaria Parasites - *CJ Janse, M Ponzi, RE Sinden AP Waters*..... 43

*Plasmodium falciparum* Proteinases: Cloning of the Putative Gene Coding for the Merozoite Proteinase for Erythrocyte Invasion (MPEI) and Determination of Hydrolysis Sites of Spectrin by Pf37 Proteinase - *I Florent, S Le Bonniec, B Carcy, P Grellier, O Mercereau-Puijalon, S Bonnefoy, D Dhermy, M Monsigny, R Mayer, J Schrével*..... 48

**IMMUNE RESPONSES**

Immune Mechanisms Underlying the Premunition Against *Plasmodium falciparum* - *Jean Louis Pérignon, Pierre Druilhe*..... 51

Naturally Acquired Antibodies Against the Major Merozoite Surface Coat Protein (MSP-1) of *Plasmodium falciparum* Acquired by Residents in an Endemic Area of Colombia - *Zilka I Terrientes, Kenton Kramer, Myriam A Herrera, Sandra P Chang*..... 55

Patterns of Acquired Anti-Malarial Immunity in Sri Lanka - *DM Gunewardena, R Carter, KN Mendis*... 63

Aspects of Immunity for the AMA-1 Family of Molecules in Humans and Non-Human Primates Malarias - *AW Thomas, D Narum, AP Waters, JF Trape, C Rogier, A Gonçalves, V Rosario, P Druilhe, GH Mitchell, D Dennis*..... 67

Immunogenicity of Multiple Antigen Peptides Containing *Plasmodium vivax* CS Epitopes in Balb/c Mice - *Myriam A Herrera, Cecilia de Plata, Jhon Mario González, Giampietro Corradin, Sócrates Herrera*..... 71

A Novel Merozoite Surface of *Plasmodium falciparum* (MSP-3) Identified by Cellular-Antibody Cooperative Mechanism Antigenicity and Biological of Antibodies - *Claude Oeuvray, Hasnaa Bouharoun-Tayoun, Hélène Grass-Mass, Jean Paul Lepers, Laurence Ralamboranto, André Tartar, Pierre Druilhe*..... 77

Advances Toward the Development of an Asexual Blood Stage MSP-1 Vaccine of *Plasmodium vivax* - *Gabriela Levitus, Hernando A del Portillo*..... 81

**CHEMOTHERAPY**

Present Development Concerning Antimalarial Activity of Phospholipid Metabolism Inhibitors with Special Reference to *in vivo* Activity - *Marie L Ancelin, Henri J Vial, Michèle Calas, Louis Giral, Gilles Piquet, Eric Rubi, Alan Thomas, Wallace Peters, Christian Slomianny, Sócrates Herrera, F Louis, Vincent Mouanda*..... 85

Infected Erythrocyte Choline Carriers Inhibitors: Exploring some Potentialities Inside *Plasmodium* Phospholipid Metabolism for Eventual Resistance Acquisition - *Henri J Vial, Marie L Ancelin, Nouredine Elabbadi, Hél Ne Orcel, Hye-Jeong Yeo, Catherine Gumila*..... 91

Transport Pathways in the Malaria-infected Erythrocyte: Characterization and their use as Potential Targets for Chemotherapy - *Hagai Ginsburg*.... 99

**ANIMALS MODELS**

Chimpanzees and Supporting Models in the Study of Malaria Pre-erythrocytic Stages - *AW Thomas, B Slierendregt, B Mons, P Druilhe*..... 111

Development of Sporogonic Cycle of *Plasmodium vivax* in Experimentally Infected *Anopheles albimanus* Mosquitoes - *Martha L Salas, Jackeline F Romero, Yezid Solarte, Victor Olano, Myriam A Herrera, Sócrates Herrera*..... 115

**RESEARCH NOTES**

The Changing Behaviour of *Plasmodium vivax* in Colombia: Relapses Despite Standard Treatment with Primaquine - *Rubén Santiago Nicholls, Martha Patricia Guerra* ..... 121
