*Neotropical Entomology* 34(6):1025 (2005)

Homonímia em Hesperiiidae (Lepidoptera): Um Novo Nome Para *Cyclopyge* Mielke

RESUMO - *Olafia* **nom. nov.** é proposto para substituir *Cyclopyge* Mielke, 2002 (Lepidoptera: Hesperiiidae), pré-ocupado por *Cyclopyge* Hawle & Corda, 1847 (Trilobita: Asaphida: Cyclopygidae).

PALAVRAS-CHAVE: *Olafia*, Trilobita, combinação nova

ABSTRACT - *Olafia* **nom. nov.** is proposed for *Cyclopyge* Mielke, 2002 (Lepidoptera: Hesperiiidae), preoccupied by *Cyclopyge* Hawle & Corda, 1847 (Trilobita: Asaphida: Cyclopygidae).

KEY WORDS: *Olafia*, Trilobita, new combination

***Olafia* nom. nov.**

*Cyclopyge* Mielke, 2002: 218 [type-species: *Cyclopyge roscius* (Hopffer, 1874), by Mielke's designation (Mielke, 2002: 218-219)], **non** *Cyclopyge* Hawle & Corda, 1847 (type-species: *Cyclopyge pachycephala* Hawle & Corda, 1847: 63).

Mielke described the genus *Cyclopyge* (Lepidoptera) for one species [*C. roscius* (Hopffer, 1874)] and three subspecies [*C. r. roscius* (Hopffer, 1874), *C. r. flavomaculata* (Bell, 1937), and *C. r. iphimedia* (Plötz, 1886)] of Neotropical Hesperiiidae.

However, this name is preoccupied by *Cyclopyge* Hawle & Corda, 1847, a genus of Cyclopygidae (Cyclopygoidea, Asaphida, Trilobita) which lived for all the Ordovician (e. g. Romano *et al.* 1993, Kock 1999, Owens 2002). Therefore, *Olafia* **nom. nov.** is here proposed to replace *Cyclopyge* Mielke, 2002. The nominal genus is in honor to the entomologist Olaf H. H. Mielke. As a result, the following new combinations are introduced: *Olafia roscius* (Hopffer, 1874) **comb. n.**, *Olafia roscius roscius* (Hopffer, 1874) **comb. n.**, *Olafia roscius flavomaculata* (Bell, 1937) **comb. n.**, and *Olafia roscius iphimedia* (Plötz, 1886) **comb. n.**
