Errata Arq Bras Oftalmol. 2011;74(4):306-10

YARA DADALTI FRAGOSO¹

Editor in Chief
Arquivos Brasileiros de Oftalmologia

Dear Prof Wallace

I write to you in regard to our publication "Literature systematic review on the ophthalmological side effects of interferons" (Arq Bras Oftalmol. 2011;74(4):306-10).

It came to my attention, due to an e-mail sent to me by Dr. Shih-Chen Chang, that the cited reference number 84 in the text should

be addressed to reference 85. The text statement is correct, but we would like to make an erratum, stating that reference 85 (Narkewicz MR, et al.) should replace reference 84 (Kabbaj N, et al.) in the paragraph that mentions side effects of interferons in children.

Thank you for the opportunity to correct our mistake.

Yours sincerely

Yara Dadalti Fragoso
