Rev Bras Ginecol Obstet 2021;43(7):578.

Dear Editor,

In 2020, we have published the article “Construct and criterion validity of the postmenopause sexuality questionnaire–PMSQ”¹ (DOI: <https://doi.org/10.1055/s-0040-1701461>). Complete copies, in English and Portuguese, of the instrument were attached to be published as supplemental material. Nevertheless, the instrument was not published. Since we have been asked to send a copy of the questionnaire to some readers of RBGO, we ask you, if possible, to publish both versions of the

instrument in RBGO as supplemental material of the article.

Conflict of Interests

The authors declare that they have no conflict of interests.

Editor-in-Chief Reply to the Authors

Dear authors,

In response to your request, we are publishing, in the current issue of RBGO, the two versions (English and Portuguese) of the Postmenopausal sexuality questionnaire – PMSQ.

Supplementary material is available.

Thank you for your contribution to RBGO.

Marcos Felipe Silva de Sá

Editor-in-chief RBGO
