

Nota importante/Important notice

We are pleased to inform that **Thomson Reuters** selected **Acta Botanica Brasilica** to be indexed and abstracted (beginning with volume 22(1), 2008) in the following services:

- Science Citation Index Expanded (SciSearch®)
- Journal Citation Reports / Science Edition
- Biological Abstracts
- Current Contents®/Life Sciences

*This signifies that the scientific production presented through **Acta Botanica Brasilica** will have greater exposure and a wider international readership. This is a result of joint efforts by all those involved in the production of **Acta**: editors, members of the editorial board, referees and the authors who entrusted us their manuscripts. We present our thanks and congratulations to all. The support from the membership of the **Brazilian Botanical Society** as well as grants from the Brazilian Research Council - **CNPq** and, more recently, from the Brazilian Ministry of Education (**MEC - CAPES**) have been essential for the progress of our publication in the past 22 years.*
